Vista, CA 92081-7829

Dear Mr. Bjorndal,

Congratulations on receiving the 2008 Federal Laboratory Consortium (FLC) Award for Excellence in Technology Transfer for the "Qwiklite" rapid method of detecting toxicity within water or sediment.

This technology offers the hope of saving billions of gallons of water in every part of the world through simple, affordable regular testing; ensuring toxin levels are monitored, known, and addressed through both cleanup and preventative measures.

Your efforts toward the development and transfer of important and valuable technologies reflect great credit upon the FLC and the Department of the Navy.

Sincerely,

Donald C. Winter
